61 Candles delivers an authentic Alternative 80’s live-band experience, bringing the sound, atmosphere and energy of the era to life with the credibility of musicians who were there when the music was happening. No gimmicks. Just four seasoned, passionate musicians performing live, driven by powerful vocals, ethereal guitars, lush synthesizer textures and compelling rhythms. This is not simply a recreation of the music — it’s a genuine celebration of the songs, artists and alternative culture that defined a generation.

Featuring members of the original Orange County multi-album alternative rock band All The Madmen, established in 1988, 61 Candles celebrates the groundbreaking Alternative Rock, Goth, Post-Punk and New Wave movement with passion, precision and authenticity.
With 4+ hours of material, 61 Candles tailors its performances to headlining clubs, festivals, outdoor concert series, corporate events and private productions, delivering a compelling live experience that connects with audiences across generations.
Their dynamic live show features the music of The Cure, Depeche Mode, Psychedelic Furs, The Smiths, New Order, Violent Femmes, David Bowie, INXS and many more — from dark, atmospheric classics to high-energy alternative anthems.

AUTHENTICITY THAT RESONATES. RAPIDLY GROWING MOMENTUM.

Since forming in 2025, the band has built an organic following of 4,000+ fans, headlined Southern California venues and shared bills with nationally recognized artists including Missing Persons and Fitz & The Tantrums.

For talent buyers, booking agents and promoters, 61 Candles offers a recognizable, highly marketable music concept backed by genuine musical credibility, a growing audience, exceptional versatility and a professional, engaging live performance suited to a wide range of venues and events.

For audiences, it's the opportunity to reconnect with the music that shaped a generation — and for new fans to discover why these songs remain as powerful, relevant and unforgettable today as they were when first released.

Their authenticity is quickly resonating with audiences. The response has been immediate and continues to grow.
